Company: IndoTech Solutions

Location: Jakarta, Indonesia

Position: Software Engineer

Job Description:
IndoTech Solutions is looking for a talented Software Engineer to join our team in Jakarta. If you're passionate about creating innovative software solutions and enjoy working in a dynamic and collaborative environment, we invite you to apply for this position.

Responsibilities:

- Develop and maintain software applications that meet high-quality standards.
- Collaborate with cross-functional teams to define, design, and implement new features.
- Identify and address software defects and issues.
- Participate in code reviews to ensure code quality and maintainability.
- Optimize code performance, efficiency, and troubleshoot problems.
- Stay updated with emerging technologies and industry trends.

Requirements:

- Bachelor's degree in Computer Science or a related field.
- Proven experience as a Software Engineer, with a strong portfolio of previous work.
- Proficiency in programming languages like Java, Python, or JavaScript.
- Familiarity with software development tools and frameworks.
- Strong problem-solving skills and attention to detail.
- Excellent communication and teamwork abilities.
- Knowledge of software development best practices.

Benefits:

- Competitive salary and performance-based bonuses.
- Health and dental insurance.
- Opportunities for professional development and career advancement.
- A friendly and collaborative work environment.
- Flexible working hours.

- Social events and team-building activities.

If you're interested in this Software Engineer position in Jakarta with IndoTech Solutions, please submit your resume and a cover letter highlighting your relevant experience to careers@indotechsolutions.id. We look forward to receiving your application and considering you for this exciting opportunity.
